Stock & Option Solutions Hosts SOS Educational Webcast: Executing Exceptional Expensing for ESPP

Webcast to provide an overview of accounting for ESPPs, best practices, and tips and tricks to help ensure compliance

Campbell, California, February 27th, 2013 - Stock & Option Solutions (SOS), a leading provider of stock plan administration, management and consulting services, today announced their upcoming webcast, Executing Exceptional Expensing for ESPP for March 12th, 2013 at 11am PT.

Accounting can be challenging, to say the least, and without insight from others who have mastered tricks and time saving secrets it can be downright near impossible. Elizabeth Dodge of SOS speaks alongside Barbara Baksa of the NASPP in this session that will explain the different components, the risks, the benefits, and the best practices for administrative challenges.

Elizabeth Dodge of SOS said, "Accounting for ESPP is one area we see a lot of issues with, often because it's being done in spreadsheets since many systems have limited functionality in this area. We wanted to educate the industry on the topic to help companies avoid the most common, and frequently seen mistakes."

This session will provide you with the knowledge to get the accounting done right regardless of where the calculations are made, who is ultimately responsible for the accounting, or if you trust your spreadsheet to compute the numbers rather than a system. Learn how to manage it all effectively and the time put forth now will save you precious time later.

For more details on the above topics, please contact Shawna Casey at scasey@sos-team.com or 408-979-8700.
