This webcast will answer the toughest questions facing companies that grant RSUs, and provide real world examples about how to get these programs to operate smoothly.

McCleskey of SOS said, "RSUs are fast becoming the most prevalent form of stock-based compensation. Because of their growing popularity, as well as the emergence of performance grants, we continue to educate our clients and partners on the fundamentals of RSUs. Knowing what makes RSUs different from other grant types, and understanding their accounting and taxation, can benefit people in many different corporate functions and improve cross-functional and participant communication. Our webcast will cover the most critical aspects of RSUs, such as accounting, taxation, payroll, and touch on some other topics including international issues."
