

FOR IMMEDIATE RELEASE

Stock & Option Solutions Announces Advanced Training Courses in Accounting for Equity Compensation

Online classes developed and delivered by SOS accounting experts will focus on 4 key topics

Campbell, California, January 17, 2014 - Stock & Option Solutions (SOS), a leading provider of stock plan administration, management and consulting services, today announced four online advanced training courses in accounting for equity compensation that will begin in February, 2014.

Delivered by [Elizabeth Dodge](#) and [Barbara Richley](#), both of [Stock & Option Solutions](#), the training sessions will run 90 minutes in length with each course covering a different key topic: Expense Recognition, Tax Accounting (ASC 740), EPS Reporting (ASC 260), and Accounting for ESPP. The online sessions are planned between February 11, 2014 and March 25, 2014. Registration is available for each session individually or for the group of trainings. Discounts are offered to those who register for all the trainings.

Training materials, a comprehensive and interactive discussion of the topic, and a quiz will all be included in each educational training session. The details needed to understand the basics and more of each key topic are to be provided.

"I love to give training sessions, especially on accounting. So many people are afraid of the accounting side of equity compensation for no reason. It's really not that difficult to understand once you break it down to its components. Other people understand the high-level but are befuddled by the details. At SOS we're passionate about de-mystifying what seem to be complex topics," Dodge shares.

For more details on the classes, please contact Shawna Casey at scasey@sos-team.com or 408-979-8700. [Register here](#).
