Stock & Option Solutions Hosts an SOS Solutions Webcast: 6039 Certainty – How SOS Keeps Your Company in Compliance and Out of Trouble

6039 experts delve into the traps to beware of, the solutions that will work, and the lessons learned from after two years of successfully dealing with this tricky regulation

Campbell, California, October 31st, 2012 - Stock & Option Solutions (SOS), a leading provider of stock plan administration, management and consulting services, today announced their upcoming webcast, 6039 Certainty – How SOS Keeps Your Company in Compliance and Out of Trouble, scheduled for November 13th, 2012 at 11am PT.

The webcast is a panel discussion that will share how SOS ensures the integrity and timeliness of client filings and features participant mailings and features members from the SOS 6039 Outsourcing group. Steve Gaylord, Vanessa Harrison, and Scott McDonald will discuss the 6039 regulation in detail; explain the common data issues and SOS audits used to catch them; the SOS outsourcing process; and electronic delivery of statements.

Scott McDonald of SOS said, “6039 compliance is something people are still getting comfortable with going into this, the third year that the regulation has been on the books. Now that errors are being uncovered and penalties being assessed by the IRS for early violations, companies are looking again at the processes they or their vendors have in place. This webcast will discuss the SOS solutions and safeguards that make the process seamless while significantly reducing the chance for error, taking everything off your plate at a time when there probably isn’t a lot of room to begin with.”

For more details on the above topics, please contact Shawna Casey at scasey@sos-team.com or 408-979-8700.
