

**FOR IMMEDIATE RELEASE**

**Stock & Option Solutions Hosts SOS Educational Webcast: Stock Splits: Easy Peasy... Not So Fast...**

**An explanation of why splits are so complicated and how pre-planning can make all the difference**

**Campbell, California, March 16, 2015** - Stock & Option Solutions (SOS), a leading provider of stock plan administration, management and consulting services, today announced their upcoming webcast, Stock Splits: Easy Peasy... Not So Fast..., is scheduled for April 7, 2015 at 11am PT.

Elizabeth Dodge of SOS and Michael Hom of Gilead Sciences, Inc. will share their experiences and key lessons they have learned from the countless splits they have worked on. This transaction appears to be easy but the reconciliation process can be tedious and complicated. In this webcast the complex details are reviewed.

Dodge of SOS says, "So many clients seem to think that a split will take just a few minutes. And they're right - in processing time. But there is a whole lot more work that should go into the reconciliation and data correction process to make sure your data is clean before and after you process the split. We're excited to share our experiences and educate our clients about the RIGHT way to manage a split."
